2030-One Dollar Per Capita Only

2031- One Dollar Per Capita Only

Total: \$7.00 per month increase over 5 years.

The Town of Massena voted against the Moratorium on Data Centers, thank you to all of the 910 members who attended, we were well represented. The money that was held in escrow has been released so the Town can hire consultants to help do their due diligence. I have been attending meetings with supporters of this project.

Congressional candidate Blake Gendebien invited me to participate in an energy roundtable to represent organized labor in the group. It went well, he has been an excellent ally for us as a candidate, I'm hopeful he gets elected.

Justin and I met with representatives from Schumers office about the Ft. Drum Micro Reactor project. They didn't have a lot of answers but were going to look into our concerns and get back to us. They also mentioned linking us up with a point of contact for construction projects on Fort Drum. During the discussion some other Jefferson County Projects were discussed. Possible Data Center, SMR. SMR are being stalled by the uncertainty with the Biden era Nuclear Supply Chain Loan Program.
