2027 Dues Rates

There has been an increased number of members wanting to pay for their dues for 2027, however we do not have the new rates as of yet. The Convention was just held the end of September where the rates were voted on, once we have the final rates we will post the rates on the Local 910 Mobil App and the monthly Newsletter.

Fort Drum has been selected as a host site for a micro nuclear reactor. I expect it to take about 25 to 50 electricians. Still no timeline I have reached out to a few different people without getting any good information. I am concerned about it being privately owned and operated and what this could mean for Davis Bacon Rates.

We are making good progress with the proposed data center project in Massena. I drafted a letter of support for the project and shared it with NNY Building Trades, so each affiliate could sign on if they agreed. I sent the letter out last week and it was well received by a few of the Board Members. We are working on a campaign supporting the project with advertising and our own petition. The next meeting will be September 16th at 4:30PM. I am hoping to get as many members as possible at this meeting. It would be nice to have a few from Massena in particular.

We had a NYS Business Managers meeting today. Some of the key takeaways were the change in apprenticeship ratio, The Pre-Fab MOU, Large projects, and the strain they can put on a Local Union. There have also been reports of people changing the classification on their dues receipts to look like they are Journeymen.
